

REMARKS

Applicants respectfully disagree with the Examiner's characterization of "Inventions I - III" as unrelated for lack of disclosure of being capable of being used together and for having different modes of cleaning and different effects. Instead, it appears that the restriction is based on the different sub-classification of each of Groups I - III as classified by the Examiner and pursuant to MPEP §808.02(A).

Applicants would like to bring to the Examiner's attention two inadvertent typographical errors present in the claims as introduced in the Amendment filed on December 4, 2003. The first error is present in Claim 3 wherein the group --R'-- should in fact be --R'--. The second error is present in Claim 13 wherein the group --R'-- should read --R'--. Applicant would appreciate the Examiner's courtesy in correcting these two typographical errors by way of an Examiner's amendment.

The pending claims are believed to be in condition for allowance. Early and favorable consideration is respectfully requested. Should the Examiner believe that a phone call is appropriate, the Examiner is invited to contact the undersigned at the number provided below.

Respectfully submitted,

David B. Fournier
